Inhumane pathway

I WAS so angry when I read that blinkered letter about the Liverpool Care Pathway by Susan Rust, I nearly exploded.

My mother took two weeks to die on this inhumane method and I was not given the courtesy of a consultation.

I had Power of Attorney over her affairs. While she was in South Coast Hospital in August 2012, nobody told me anything and, when I tried to read her notes, they were snatched away.

I watched her starved and dying of thirst in front of me and there was nothing I could

do. The nurses knew what was going on.

Please don't give me rubbish about caring passionately. Would Susan Rust like to watch her mother dying in this cruel way? I don't think so.

SYLVIA GOOCH, Sevenoaks, Kent.
