# Rotherham's girls

SIR – The representation in the BBC drama *Three Girls* of the scandalous exploitation of underage girls in Rotherham reveals an underlying contributory factor that has largely escaped notice.

The children were being raised with, or encouraged by their schools to adopt, a mindset that accepted underage sexual relations as the norm. We were even shown a school sex education official handing out condoms. Small wonder that the girls acceded so readily to having further sex with the Pakistani men.
